

Simple, **Green**, Effective... *Food Safety Solutions.*

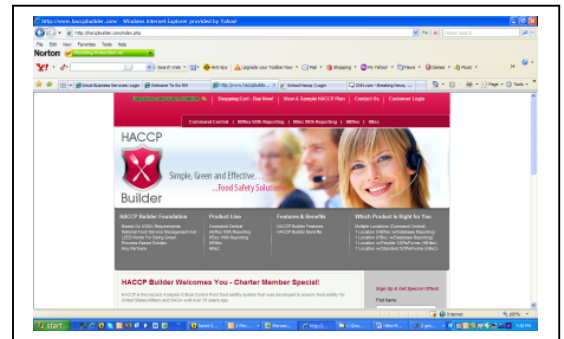

## **Command Central** *Go Green*

**Okay, you have been searching** for a HACCP Food Safety Compliance solution that will handle all aspects of compliance, keep you up-to-date on each of your store sites in real-time, send staff task notifications plus alert you when tasks are not being completed – **well, you found it. Plus, you will save 10% to 45% on your annual liability insurance premium.** Command Central from HACCP Builder does all of it.

**With Command Central there is no waiting days, weeks or months to take corrective actions.** Your organization will now be able to take corrective actions immediately to make sure that your entire organization is staying HACCP Compliant. Think of the dollar savings for your organization – in just the monitoring aspect of HACCP food safety. In addition, you will know “hot spots” in your organization immediately so you can rectify any situation immediately. HACCP Builder also provides three products you can select from based on your needs. Pick from HBflex, HBflex with reporting, and Command Central.

**In fact, with the assistance of HACCP Builder, we can have your organization, no matter the size, on your way to HACCP Compliance in under a week.** That’s right, in under a week. Ask for details and we can show you how. HACCP Builder provides you with all of the USDA/FDA tools to keep you complaint on an ongoing basis. Just take a look at what is included with Command Central:

- Easy answer all online procedural questions
- Easy enter online equipment, vendors, ingredients and menu items
- All CCP’s properly assigned plus food recall handling
- Easy link food categories
- Hazards automatically assigned by system
- Easy select all food preparation processes
- Task notifications and e-alerts when there is an issue
- USDA Standard and customizable SOP’s, food safety check list and validation worksheet
- Easy online answer and storage of food safety check list, validation worksheet and daily/weekly reporting

**With HACCP Builder, it’s easy to be compliant.**
